

## Provider Validation Requirements for CMS 1500 Submitted via Electronic Data Interchange (EDI)

Providers treating Empower members must be enrolled with Arkansas Medicaid and must have an active Arkansas Medicaid ID, registered taxonomy, NPI and full physical billing address on file with both Arkansas Medicaid and Empower in order to receive reimbursement.

Empower will be validating data via front-end claim edits. If the data submitted on the claim does not match the data registered with Arkansas Medicaid, claims will reject and providers will need to resubmit with corrected data.

### Atypical Validation

Medicaid ID  
Physical Billing Address (zip 5+4)

Provider types- 06,15,23,27,32  
6,39,50,51,52,53,54,55,56,57,67,  
70,71,72,73,74,75,82,83,84,85,86  
87, 95\*

\*PT 95 with NW, NT, NU, NV specialties  
require NPI

### Standard Validation

NPI  
Taxonomy  
Physical Billing Address (zip 5+4)

## Taxonomy Submission CMS- 1500 EDI

### Billing:

Loop 2000A-PRV01= "BI" = Billing PRV02 = "PXC" qualifier PRV03 = 10 character taxonomy code

### Rendering:

Loop 2310B-PRV01 = "PE" Performing PRV02 = "PXC" qualifier PRV03 = 10 character taxonomy code

## Clearinghouse Tips\*

**Credible Configuration:** Credible is configured at the account level.

- Credible Express – open a ticket for Credible to complete the set up
- Full Access Credible – Check the box on the Payer Set Up tab

Use Billing Group Alt Sub ID :

2000A BILLING PROVIDER HIERARCHICAL LEVEL

**Use 'BI' Qualifier for Provider Taxonomy :**

Use Rendering: --N/A--

2000A BILLING SUBSCRIBER HIERARCHICAL LEVEL

**Trizetto:** Confirmed they have turned on the Taxonomy requirement at the payer level for Empower

- Taxonomy Codes** - Taxonomy Codes **must be 10 digits**  
See 'Physician, Facility Library' > Taxonomy Codes

Taxonomy Code:

**Detaso Software:** Coming Soon

\*Examples by Clearinghouses will be periodically updated
